

RED HOOK TOWN BOARD MEETING

March 28, 2018

A meeting of the Town Board of the Town of Red Hook, Dutchess County, New York was convened in public session at the Town Hall, 7340 South Broadway, Red Hook at 7:30 p.m.

Present: Supervisor Robert McKeon
Councilman Harry Colgan
Councilman William O'Neill
Councilperson Sarah Imboden
Councilwoman Christine Kane
Town Clerk Sue McCann

Also Present: Attorney Christine Chale

Supervisor McKeon called the meeting to order and opened with the Pledge of Allegiance.

ANNOUNCEMENTS

Supervisor McKeon announced that Town Hall will close at noon on Friday, March 30. The annual Clean-Up-Day will take place on Saturday, April 21 beginning at 2 p.m.

PUBLIC COMMENT PERIOD

Supervisor McKeon opened for comments.

Linda Keeling commented that at the last meeting, at no time, was the Highway Department given any recognition for the hard work they did during the blizzard. It was a real disgrace. In regard to the Supervisors personal Facebook and official Town web site, they were out of sync regarding the availability of dry ice during the power outage. She felt that only those who are friends of the Supervisor knew the availability and that is discrimination.

Supervisor McKeon apologized for not complementing the Highway crew. They did an outstanding job this winter, and so did the utilities. As far as the dry ice, Central Hudson supplied that and water at the high school and Town Hall.

There were no more comments.

DISCUSSION – AMTRAK FENCE PROPOSAL

Supervisor McKeon referenced the Amtrak fence proposal. Amtrak notified New York State that they intend to erect fencing or gates perpendicular to the Hudson River and railroad tracks in order to prevent vehicular traffic alongside the tracks for safety reasons. He pointed out aerial pictures where the fencing or gates will be installed. It is in Tivoli north and south of Diana Street along the waterfront area. He pointed out the stretch that is owned by Tivoli.

Councilman O'Neill said the fence is going up by the right-of-way.

Councilman Colgan said that it is well established what land is owned by Tivoli, Amtrak can't build there and they know that.

Supervisor McKeon pointed out the area where there has been public access to the river. There was a comment period from the Dept. of State that has been extended to May 1. The Tivoli Mayor is trying to get more detail. He will forward the information to the Town.

Councilwoman Kane said the reason there is public comment on this is because of the Coastal Zone program. That's why it is coming through the Department of State. That's why both the Village and the Town can submit comments. There is not very much information and she questioned the gates to prevent people from driving. Is this part of a larger project of more fencing along the tracks?

Councilman Colgan said this is all along up and down the County. They are only blocking crossings.

Supervisor McKeon commented that people will be able to walk across.

Councilwoman Kane asked if there is anything regarding CSX? Amtrak doesn't own the tracks, CSX does.

Supervisor McKeon said that CSX does own the tracks but Amtrak manages it.

DISCUSSION - REQUEST TO TOWN FOR ABANDONMENT OF A PORTION OF FREEBORN LANE

Supervisor McKeon explained the request to abandon portions of Freeborn Lane. He pointed out the area on an overhead map. The Town does own the length of the road but there is mostly private access on the portion requested to be abandoned. Gates have been up that are closed most of the year. It does have some public use. The farmer requested that portion be abandoned.

Before considering that request we have to speak to the adjoining land owners to see if they will be supportive. One of the concerns is that we had a stretch of W. Kerley Corners Road that was not passable.

Councilman Colgan said it is very apparent during the mud season.

Highway Superintendent Theresa Burke said the Town hasn't maintained that section in years, since the gates were put up. It would be an enormous expense to bring that road up to Town standards.

Supervisor McKeon said we could keep it as a seasonable road.

Highway Superintendent Burke said it has been an open issue for so many years that there should be some resolution.

Supervisor McKeon said one challenge is that there are still people using that stretch, that if it is abandoned the farmers can use that road. That has to be taken into account. We would abandon it and it would belong to the Village of Tivoli.

Attorney Chale assumes so but we would have to do a title search on it.

Supervisor McKeon said it might become the Village of Tivoli's issue.

Councilman Colgan said one side belongs to Ken Migliorelli and the other to Tivoli.

Supervisor McKeon pointed out parcels. This is the beginning of discussion. We have to get input from adjoining land owners. The Town should not incur the expense of a title search.

Councilwoman Kane asked about plowing if we abandon the road.

Highway Superintendent Burke said we now plow the asphalt section from E. Kerley Corners Road to the gate. She has to find out who installed the gates. There is a driveway they use for a turn around. She explained the process.

Councilperson Imboden asked what the next steps are. We need all the facts and a better map.

Highway Superintendent Burke explained that highway law speaks to public roads, user roads, and private roads. If a road has not been maintained for ten years, it can be private road.

Attorney Chale said the documents found about the temporary closure of that section to prevent dumping seems to indicate that the Town put the gates up in 1990.

RESOLUTION TO EXECUTE NYPA MASTER AGREEMENT

Supervisor McKeon explained that we are exploring working with NYPA on our street light project on the recommendation of the Mid-Hudson Street Light consortium. There is a master agreement with the municipalities. As soon as we execute this they will prepare the design proposal for us. Jen Cavanaugh produced new street light maps which they submitted digitally. He explained the last step to be done then read the resolution.

RESOLUTION TO AUTHORIZE ISSUANCE OF RFP SOLAR PROJECT

Supervisor McKeon explained that we need to get estimates for the work. We need an RFP to get specific quotes. It is our understanding that NYSERDA will support these projects.

Councilperson Imboden thought a developer was supposed to do the actual project. At what point does the developer come in?

Supervisor McKeon told her that this RFP is to developers. They will be submitting bids.

Councilman Colgan said it will be on the Villages well field. He voiced his concerns about it diminishing access to the well field.

Supervisor McKeon said that will be addressed. The Village is in support of this project.

CORRESPONDENCE

Supervisor McKeon received correspondence from a landowner on Budds Corners Road who went before the Planning Board to gain approval for a residential parcel. It is a wooded parcel and they cut the trees down and sold the wood. That triggered a commercial aspect. It is a minor residential parcel and our building department said it would be subject to the moratorium on large scale commercial extractive operations. It is a very small parcel.
